KS2 MATHS · TIME (YEARS 4 TO 6)

Make a 24-Hour Clock: the face

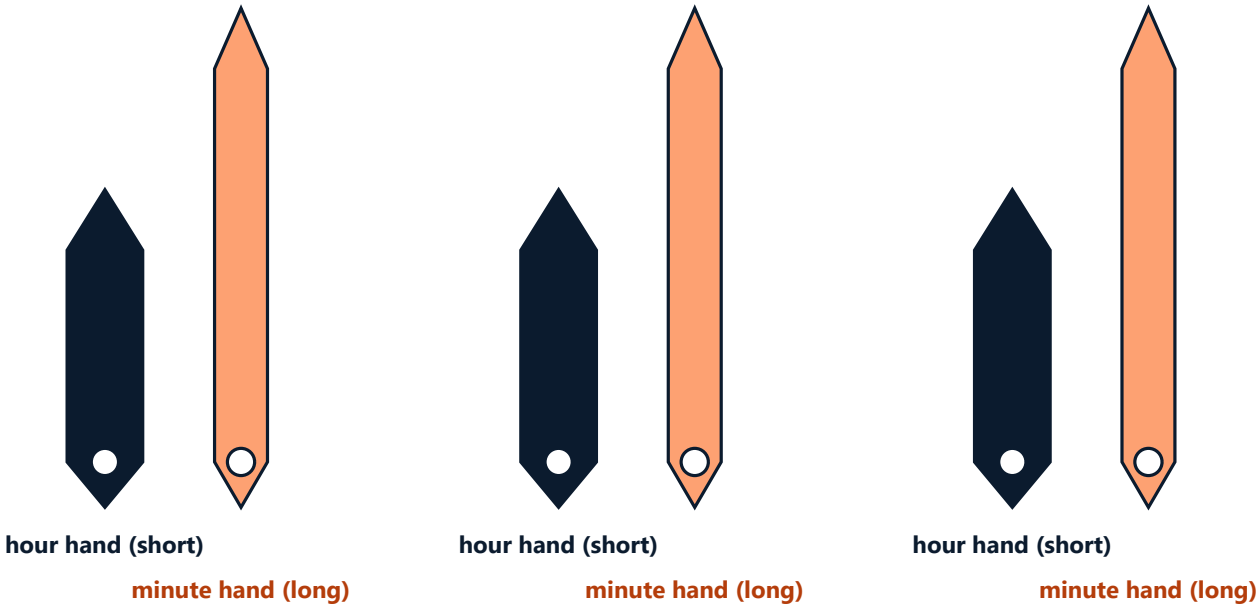

Colour the outer numbers (1 to 12) yellow and the inner numbers (13 to 23, 00) blue. Cut out the circle.

KS2 MATHS · TIME (YEARS 4 TO 6)

Make a 24-Hour Clock: the hands

Cut out one short hand and one long hand. Join them to the face with a paper fastener.

TRY IT WITH A PARTNER

1. Your partner says a 24-hour time, for example 15:45. Show it on your clock.

2. Say the time in words: "quarter to four in the afternoon".

3. Inner numbers (13 to 23, 00) are the 24-hour hours. 00 is midnight.

4. Swap: you show a time, your partner writes it on the 24-hour clock.

You need: scissors, a paper fastener (split pin) and card. Ask an adult to help.
